### BROADCASTINGS.

Nothing but first love can make a girl's elbows pretty on the back side.

The average girl is never satisfied until she finds a son-in-law for her mother.

There's this about the ex-Kaiser's new wife—she won't have any trouble keeping him at home.

Our idea of an optimist is the fellow who expects lying to stop just as soon as the election is over.

The best advice we can give the young men is to never fall in love this close to Christmas time.

Some people argue that having a \$2 bill is bad luck, but we've found that not having one is worse.

Some folks seem to think that the best way to start a library is to borrow books from other people.

It has about gotten so in this country that a natural death consists in getting run over by an automobile.

A Chicago man has discovered a way to make a pair of shoes last ten years. Going barefoot will do it, too.

Here's a beauty hint for women: Don't talk about your neighbor or your hair may come out by the handful.

If a girl is pretty she knows it just as well as a man does, but she won't think any the less of him if he tells her so.

Every now and then we meet a man who figures on how much money he could have saved if he hadn't married.

What this country needs more than anything else is an alarm clock that will wake up only the man who sets it.

It seems pretty easy for our high-salaried railroad magnates to figure out a living wage—for the other fellow to live on.

The worst thing about Russia is that every hair-brained tourist who spends a week there comes home and starts to write a book about it.

It's still a pretty good world as long as a farmer can take his axe and cross-cut saw to the woods and tell the coal mine owners to go chase themselves.

Maybe the reason Thanksgiving comes but once a year is because it takes a whole year for some people to discover something to be thankful for.

We may not be able to stop the arguments over boundary lines in Europe, but we can help this section by fixing up some of the dilapidated fences between our yards.

### USE THE WASTE BASKET.

Bay St. Louis citizens sometimes find in their mail a mysterious "chain letter," usually one containing a special prayer for happiness, or good luck, or something equally as foolish, and along with it a threat that had luck will pursue them if they don't write a similar letter to three of their acquaintances. In other words, they are threatened with dire things if they "break the chain." The nuisance has started up again in this country, and Uncle Sam has sent out a warning to pay absolutely no attention to such letters. They usually spring from the mind of some thoughtless, irresponsible busy-body who hasn't sense enough to know that unless the chain was broken there isn't enough men in the postal department to handle this class of foolish letters and nothing else. Don't be skeptical enough to give the "chain letter" a second thought. Drop it into the waste basket—and if you haven't a waste basket the kitchen stove will answer just as well. The Echo has on previous occasion called attention to this nuisance. It is born of suspicion and fear. It feeds off ignorance. By all means, kill it.

**Bonded Indebtedness Shown.**  
The bonded indebtedness of the three Mississippi coast counties is said to be as follows: Road and bridge, Hancock, \$54,000; Harrison, \$279,409; Jackson, \$331,500; total of all bonded debt, Hancock, \$54,000; Harrison, \$1,070,000; Jackson, \$335,500.

## CLEAN UP, PAINT UP AND LOOK UP.

"If every town in the South would imitate most of the towns in Florida, the South would become noted throughout the world for the beauty and charm and cleanliness of its towns," says the Manufacturers' Record.

"Cleanliness, it has been said, is next to Godliness. A dirty individual is neither clean spiritually nor mentally. Dirt makes for ruin physically, mentally, morally. This is as true of a town as of an individual. The dirty town, the town full of rubbish, of untidy houses, of muddy streets, of insanitary conditions, is non-progressive materially, morally and educationally. Neither moral nor material advancement flourish in dirty, unkempt dwellings or in unkempt towns.

"If any town or city is ambitious for advancement, or if even a few of its men and women are ready to devote their time and energy to the betterment of the community, the surest way to achieve success is to clean up—make back yards and front yards clean, make streets clean and keep them clean, encourage the people, white and black alike, to beautify their homes and their yards, stimulate a love for and a pride in their homes and in their towns, repair the tumble-down yard fences, paint up, make things as clean outside as they should be inside, and then that community will look up mentally, morally and materially.

"No community which does not clean up and paint up, which does not do its best to have clean streets and clean yards, has any right to look up and face the world.

"A cheap coat," said President Harrison, "makes a cheap man." In the same way it might be said a dirty town makes a dirty people; a dirty people makes moral and material dirt and decay. It is the duty of all men and women to make their homes and their home towns just as clean and attractive and beautiful as possible. He who falls short in this respect falls short of his duty to God and man, it matters not what else he may do."

### A GOOD TRADEMARK.

When you go into a store to buy supplies, you don't say, "I want a cake of flour," or "give me a cake of soap." You call out the name of the flour and the name of the soap, because you know those names stand for a certain type of flour and soap, goods with a reputation. Every merchant has a firm name or a name for his store, and he is proud of that name.

There is not a successful merchant in Bay St. Louis, Hancock county, or for that matter, anywhere, who is not jealous and zealous for the care of his good business name, as well as for his own. It has been built up by fair dealing, diligent application and honest advertising, possibly advertising in the columns of The Echo. Many a villa, and many a modest home carries a name that soon becomes popular and commands the regard of the public. It is not always the name but the character of the people who live therein that attracts.

Then why should not the farmer be proud of his farm and the products that come off of it to give that farm or place a name? With a name to live up to, a reputation to maintain, the farmer will take new pride in his place and a new interest in his business. Select an appropriate name, such as "Happy Hollow," "Happy Dale," "Hill Side," "Pine Grove," "Pearl Haven," "Jordan Shores," etc., etc. Something along that line, and paint it on the barn in nice letters so those who pass may see it and know thereby that you are progressive and believe in the product you sell. If you produce syrup, name your syrup after your farm. If the product is good, that name will identify your goods.

Every farmer is a business man. Like every good business man, he should have a supply of printed stationery. At least a letter head and envelope, and possibly a few bill-heads and statements. There's no reason why every farm around Bay St. Louis and Hancock county should not have an appropriate name. It's your trademark, and folks will very soon learn the value of it.

### WE HAVEN'T CHANGED.

If you'll stir around over Bay St. Louis a bit and talk to some of our older citizens, we venture to say nine out of ten of them will openly declare that "boys don't have the good times now we did when we were young." It's a common belief among those whose hair has commenced to silver that youth is more intent on "girl chasing" and money spending than was the case twenty, thirty or forty years ago, and that the real, down-right fun boys once enjoyed is a thing of the past.

We can't always agree with this argument, because we are forced to consider that conditions have changed and naturally our growing boys and girls are only meeting these new conditions. We are not satisfied today with the same things our fathers were satisfied with, such as a horse and buggy instead of an auto; a gang-plow instead of a tractor; a tallow candle instead of a modern lamp or an electric light. So why should we expect a boy to be satisfied with what we had to put up with when something more modern is right at his finger tips? And it's true of our girls, too. Mother used to be satisfied with candy bars with reading on them or a sack of stick candy. That was because she didn't know anything about chocolates and ice cream soda and nut sundaes. We used to get a lot of joy out of a home-made kite. Today it takes a miniature airplane to please a boy of like age. When mother was a girl she joyed in the possession of a bright-colored rag doll. Nowadays can't she get a rag doll in anything but an expensive, good quality of material?

### IT'S WORKING OUT.

We are still hearing a good deal about the elimination of the "middle-man" and how prices for the necessities of life would be far more reasonable if we could get our farm products before they pass through so many hands. In fact, a pretty general attempt to prove the merit of this argument was made during the past summer when thousands of farm residents in many sections of the country started in to maintain roadside markets, where autoists could stop and buy farm products, fruit, etc., direct from the producer. It hasn't progressed far enough to tell how successfully it is going to work out, but the fact that the plan gained in popularity so rapidly leads us to believe that it is going to become a pretty big factor in future marketing.

We frankly believe necessities pass through too many hands before getting to the dinner table. And that thousands of others believe the same way is demonstrated by the fact that more and more producers are commencing to sell their products by advertising them, and using the parcels post or express lines for delivery. We see where one farmer in Virginia makes good money selling hams cured on his own farm through small ads he carries in his home-town and neighboring county papers. Another man in Tennessee is selling all the walnuts and hickory nuts he can buy up in his community through advertising them, and filling the orders by mail.

If anything will reduce the price of necessities it will be direct advertising by the producers and a more general use of the parcels post. People would far rather buy from the producer direct. And the advertising won't cost as much as even one middle-man takes for his profit from something he had no hand in producing.

### THE PASSING OF THE PANCAKE.

We read where a pancake-eating contest was recently held in an Eastern town and a native consumed 73 so-called pancakes. And that news reminds us that we are living in a mighty sorry age. It is proof that the pancake of today, or at least the Eastern kind, are not the same brand of pancakes Bay St. Louis folks used to know in days gone by. For no man, living, no ship-wrecked sailor, or under-covered tramp, could have consumed 73 of those rich, thick, delicious pancakes of old any more than he could swim the Atlantic ocean. There never was a farm hand hungry enough to get away with anything like that number. Plainly, the old-time pancake seems to have passed into memory. It has dwindled and shrunk and shriveled and contracted to the point where an ordinary man can eat 73 of them at one time and still live! Surely times are changing, and old friends, including the old-fashioned pancake, are rapidly passing away.

## JAPANESE CAN'T BE CITIZENS OF U. S. RULING.

Japanese are not of the "white" race under federal laws, and are not entitled to citizenship by naturalization, the United States Supreme Court decided Monday.

The opinion sets at rest a vigorously contested dispute which arose on the Pacific coast and has been waged there for years.

Associate Justice Sutherland delivered the decision, being the first opinion since becoming a member of the court.

The Supreme Court held that the federal statute limiting citizenship to free white persons and Africans or those of African descent, had not been repealed or modified by any subsequent legislation, and that Japanese are not of the Caucasian race. The court affirmed a decision by Washington State court holding this opinion.

Decision as to the "color" of a Japanese and eligibility to naturalization as a citizen of the United States under a federal statute limiting naturalization to white persons and Africans or those of African descent, was asked of the United States Supreme Court in the appealed cases of Takao Ozawa, of Honolulu, and Yamashita, of Washington State. These cases have attracted much attention, especially on the Pacific coast, where the Japanese question is acute.

CRACIOUS SENTIMENT FROM A NOBLE GENTLEMAN.

S. F. Von Ehren Contributes Check to Community Christmas Tree Fund.

S. F. Von Ehren, progressive and public spirited citizen, and whose heart and purse are ever open, has addressed a letter to the president of the Bay St. Louis Parent-Teachers' Association, accompanied by a cash contribution, which bespeaks gracious sentiments and manifests nobility of character.

The letter is as follows, its publication unknown to Mr. Von Ehren: Bay St. Louis, Nov. 22, 1922.

Dear Madam:  
I sincerely regret that the meetings of the P. and T. Ass'n. and the entertainments for the benefit of the Community Christmas Tree were all held at an hour that denied me the pleasure of being present to aid the good cause in person.

However, I refuse to be denied, and in the spirit of cheerful co-operation in making glad the hearts of our young on the most glorious holiday of the year, I beg to tender the enclosed check, in the name of Von Ehren and little Roma, towards the purchase of a little more happiness for the beautiful occasion.

And unto my first regret let me add another: The regret that I am not in a position to multiply this little donation by ten or twenty.

With hopes for the fulfillment of your and the association's most sanguine expectations.

I am, with best wishes,  
Yours respectfully,  
S. F. VON EHREN.
